

Herbivit Plus

Full range of vitamins and amino acids

Herbivit Plus is a dietary supplement intended for birds, containing all the necessary vitamins and amino acids which are lost in course of diarrhoea. The formula has been enriched with herbal extracts in order to stabilize the digestion and feed consumption.

Composition: mixture of flavouring compounds, vitamin A, vitamin B1, vitamin B2, vitamin B5, vitamin B6, vitamin B9, vitamin B12, vitamin D3, vitamin E, vitamin K3, hydrolyzed animal protein, propylene glycol

Indications: Herbivit is intended for each production type or group of poultry. It is particularly recommended in case of:

- young birds in order to support their safe and optimal rearing
- older animals in course of recovery from infectious diseases
- deficiency of the components included in the product

Usage: 500 ml / 1000 L of drinking water, 12h daily for 5 days

Package: 1L, 2L, 5L
